VENUE : UNIKL BMI, GOMBAK

GRID CONNECTED PHOTOVOLTAIC (GCPV) SYSTEM FOR WIREMAN & CHARGEMAN

COURSE SYNOPSIS

The 5-days course is structured to intensify human capital development in Malaysia RE Industry especially in solar PV. Among the objective of the course is to expose the wireman and chargeman in Malaysia with regards to solar PV installation dealing with direct current (DC) side and components. The training will encompass both theoretical and practical sessions, ending with a competency examination.

COURSE CONTENT

The Course Covers:

The introduction of GCPV systems that include solar PV modules, inverter and associated equipment; and
The installation and maintenance of the GCPV systems that need to be emphasized by Wireman and Chargeman.
Simulation Learning: Using a combination of self-paced, interactive online CPR classes and in-class skill sessions, our groundbreaking Simulation Learning courses give you the ability to train on your schedule, and demonstrate your skills to a certified instructor.
